Call 800-233-8990 or visit certainteed.com/buildingscience.

Why spray foam? It fills a void in the market.

- Appropriate for whole house applications, or in combination with fiber glass.
- Provides effective air sealing for today's complex homes/construction.
- An excellent sustainable solution for green building.
- All-in-one insulation and air sealing system keeps production on schedule.
- Builders' and consumers' awareness and interest in energy-efficient homes is growing.

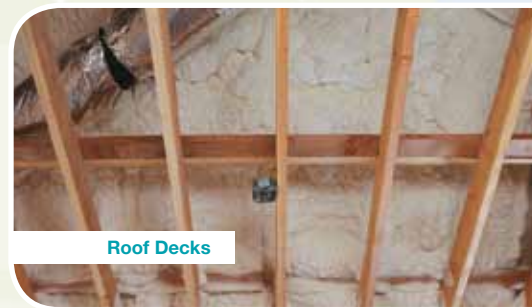

CertaSpray® foam complements the complete line of CertainTeed insulation.

- A complete line-up of insulation solutions.
- For wood or steel stud construction.
- Both residential and commercial applications.

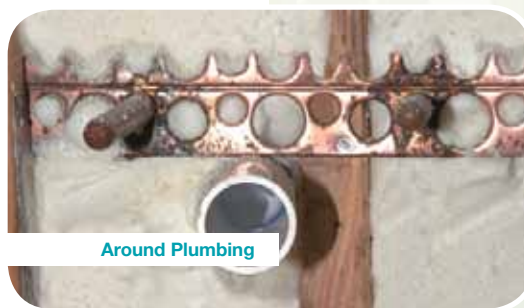

CertaSpray® Foam — for every type of insulation application.

Thermal Applications

Sound Control Applications

The advantages of CertaSpray® Open Cell Foam Insulation.

Complete jobs faster.

The fast-rising formula lets you cover more area faster with fewer strokes, less fatigue, less waste; it's also more forgiving with a broad application temperature range.

Increase your cash flow.

Order less than a truckload and combine your spray foam and fiber glass insulation orders on the same truck; reduce your inventory requirements.

Increase your business with minimum effort.

Get up and running fast by becoming qualified by CertainTeed, plus get technical support and marketing materials.

Great product availability.

There's a CertainTeed insulation facility near your business.

Everything you need from one source.

Take advantage of CertainTeed's legendary customer service, order management, logistics, and best-in-class field personnel committed to taking care of you.

All from a company you can trust.

For more than 100 years, building professionals have counted on CertainTeed residential and commercial products, services and Building Science support.

Issues affecting thermal performance

- Insulation
- Ventilation
- Mechanical penetrations
- HVAC systems
- Windows
- Home design
- Exterior cladding
- Air barrier and vapor retarder
- Climate conditions
(wind, sun, temperature
and humidity)

The systems used in building a home affect energy efficiency, comfort and overall performance. CertainTeed developed CertaSpray foam with the whole house in mind, for maximum performance.

Homeowners can feel the difference with CertaSpray® Open Cell Foam Insulation.

Excellent sound control.

Dampens noise coming from outside and inside the home.

Outstanding energy efficiency.

Minimizes hot and cold spots in a home; stops air leakage that can cause energy loss.

Complete performance.

Reduces energy demand through effective air sealing and thermal efficiency.

Superior comfort and indoor air quality.

Reduces air leakage and the penetration of moisture, outdoor allergens and pollutants that can affect indoor air quality.

For every insulation challenge, there's a CertainTeed solution.

Our full line of innovative products, years of industry experience and one-on-one support helps provide you the confidence to build a stronger business.

Excellent delivery
and availability.

Training to be
CertainTeed qualified to
install Certaspray foam
insulation.
