

NINTH ANNUAL MEETING

W Osler

American Osler Society

San Francisco, California

March 27, 1979

"There are two great types of leaders; one, the great reformer, the dreamer of dreams — with aspirations completely in the van of his generation — lives often in wrath and disputations, passes through fiery ordeals, is misunderstood, and too often despised and rejected by his generation. The other, a very different type, is the leader who sees ahead of his generation, but who has the sense to walk and work in it. While not such a potent element in progress, he lives a happier life, and is more likely to see the fulfilment of his plans."

... those that know how I live, may justly say,
I regard not life, nor stand in fear of death.

Sir Thomas Browne

The AMERICAN OSLER SOCIETY has been founded for the purpose of bringing together members of the medical and allied professions who are, by their common inspiration, dedicated to memorialize and perpetuate the just and charitable life, the intellectual resourcefulness and the ethical example of William Osler (1849-1919). This, for the benefit of succeeding generations, that their motives be ever more sound, that their vision be on ever-broadening horizons, and that they sail not as Sir Thomas Browne's Ark, without oars and without rudder and sails and, therefore, without direction.
