FOR IMMEDIATE RELEASE: December 2, 2011

Domaille Engineering announces new Quality Assurance Manager

Rochester, MN, December 2, 2011– Daniel Schlinger has joined the Domaille Engineering team as the new Quality Manager for the Rochester, MN plant. Prior to taking on this role, Mr. Schlinger served as Quality Specialist at Rochester Medical Corporation in Stewartville, MN where he lead efforts for FDA 510(k) compliance on new product development efforts, along with auditing critical suppliers for compliance to FDA CFR Title 21 Part 820, ISO 13485 and ISO 9001 quality systems requirements.

Mr. Schlinger has extensive experience as a Quality Assurance manager and machine shop supervisor in various Midwest and East Coast organizations. He has led multiple plants through FDA, ISO certification and Nadcap accreditation. He also directed compliance efforts for the European Medical Device and Canadian Medical Device Directives.

Mr. Schlinger's new responsibilities are to accurately measure the Quality System to determine effectiveness, initiate effective corrective action as needed and update Quality System requirements for ISO 13485 compliance and certification. "I'm very pleased that Dan will be joining Domaille Engineering. He brings a tremendous wealth of knowledge to our management team. With his addition, we now have the tools and expertise to move forward as a leader for Life Science equipment and devices," states Jim Frazer, President of Domaille Engineering.
