Tuition Assistance Program

RASA strives to make tuition affordable for parents. Partial tuition assistance is available based on financial need and available funds. Applications are reviewed on a case-by-case basis. Awards are made for one academic year at a time. Any decisions relating to the tuition scholarship program are made after enrollment and entirely separate from the admissions process. Interested families of enrolled students use the TADS online financial aid assessment process to begin the request for financial aid. Information about students receiving tuition assistance is kept strictly confidential. Please contact the principal to initiate the process of applying for tuition assistance. The funds for the tuition assistance program are supported by community donations and the school fundraisers.
