Y Mentors

Contact Tierre, Y Mentors Program Coordinator, for more information at tierrew@rochfamy.org or 507.287.2260

Y Mentors provides positive mentoring relationships to help youth discover abilities by broadening their experiences and opportunities.

BECOME A MENTOR

Mentors offer their friendship and guidance to build a healthy mind, body, and spirit in their mentee. Currently more than 70 kids are waiting for a mentor. Majority of our waiting list is boys waiting for a mentor. We are always in great need of male mentors. Could one of them be waiting for you?

Volunteers must complete an application, furnish references, be willing to submit to a criminal background check, and able to make a one year commitment to the mentoring relationship.

REGISTER A CHILD

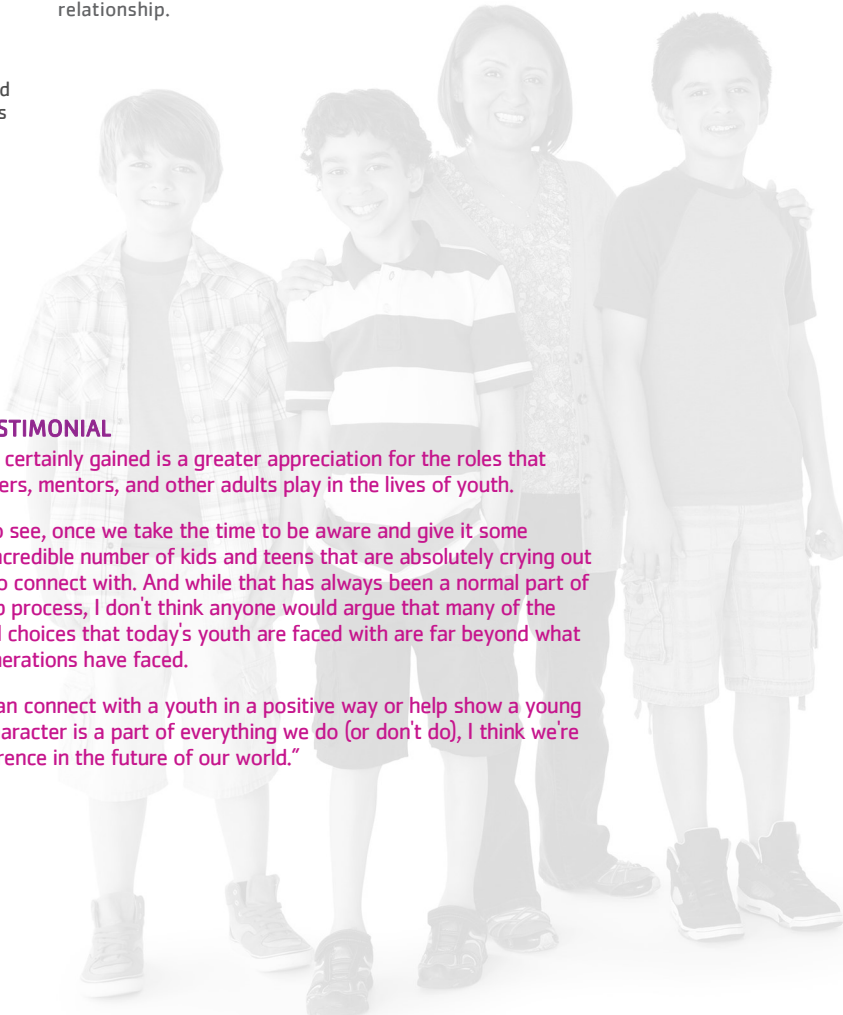

- Youth must want a mentor and be attending school.
- Mentees have a personal or family need and might be referred to the Y Mentors by school counselors, teachers, social workers and/or parents.
- Learn more and register by contacting our staff at the Y.

MENTOR TESTIMONIAL

"One thing I've certainly gained is a greater appreciation for the roles that parents, teachers, mentors, and other adults play in the lives of youth.

It's not hard to see, once we take the time to be aware and give it some thought; the incredible number of kids and teens that are absolutely crying out for someone to connect with. And while that has always been a normal part of the growing up process, I don't think anyone would argue that many of the challenges and choices that today's youth are faced with are far beyond what any earlier generations have faced.

Any time we can connect with a youth in a positive way or help show a young person that character is a part of everything we do (or don't do), I think we're making a difference in the future of our world."

shiatsu massage

Schedule an appointment by calling or texting
Naoko Vold at 507.254.8266

Shiatsu massage is an old healing process that uses thumb and hand pressure on certain points called "Tsubo" (vital points). Muscle tension in your upper and lower back is caused by an accumulation of lactic acid and carbon dioxide gas, which makes the muscles contract and causes fatigue. Shiatsu will help relieve muscle tension, increase your circulation, and eliminate the toxins from your body.

SWIMMING LESSONS

parent/child lessons

These programs are a great way to introduce aquatic safety skills through games and songs. They offer water enjoyment for both the parent and child. These classes are designed to encourage learning and water adjustment in a safe, positive setting. Parents accompany their child at all times while an experienced instructor guides parents in teaching their child fundamental safety and aquatic skills. These classes are an excellent way for children to begin transitioning to the preschool swim program.

6-18 months

Shrimp is an introduction to the aquatic environment for parents and their infants. Parents are encouraged to develop appropriate expectations for their children's performance in the water. They learn basic aquatic safety and have a positive experience with their children that can help them grow closer.

19 months-3 years

Kipper continues to provide positive aquatic experience for parents and infants. The infants learn basic water skills and have fun playing with toys and flotation devices. Parents review and learn more about basic aquatic safety.

preschool lessons

AGES 3-5

Our preschool lessons provide children with their first pool experience without parental assistance, in a safe, fun and positive learning environment. Children must be 3 years of age by the start of class.

This is a transitional class from parent/child to preschool lessons. It slowly introduces swimmers to the pool who have not had group lessons before or children who might be hesitant about swimming. Parents are not required to be in the pool with the child but they have the options to be in the pool for the first two lessons.

Skills Spotlight: blowing bubbles, floating, and paddling with assistance

This class is for preschool swimmers who are comfortable in the water without parents. This class presents basic swim skills through games and fun. Swimmers begin to submerge their head and swim with an IFD (noodle).

Skills Spotlight: floating, paddling, and kick on both front and back with assistance

This class is for preschool swimmers who are comfortable in the water and can swim independently with an IFD (noodle, floatation pack).

Skills spotlight: independent paddle front and back (2 yards), floating front and back with assistance, and submerging face/head

This class is for swimmers who are well adjusted to the water and are eager to learn more. Ray swimmers continue to build on skills such as effective kicking and floating.

Skills spotlight: kicking, floating on both front and back, and progressive paddle stroke

This class is for swimmers who are ready to begin developing their endurance and stroke development. The swimmers in this level are also introduced to treading water, rhythmic breathing, rescue skills, and personal water safety.

Skills spotlight: independent arm strokes for front crawl, back crawl, elementary backstroke, breaststroke, and sidestroke

The program coordinator is Merilea Osterlund (homeschooling mom and Red Cross certified Swim and Lifeguard Instructor with competitive swimming experience). We hope to have other volunteer instructors/coaches join us on occasion for special skill segments on stroke and fitness techniques or how to take your swimming to a new level. Again, this is not designed to be swim lessons with individual instruction time. While there will be coaching and technique building, participants will primarily use the time to work toward an individual goal and build fitness and endurance in the swimming pool (with occasional group pool games to keep things interesting).

AWANA is one of the largest, most energizing, Bible-centric, non-denominational children's ministries in the world. This is a place where your child will have the opportunity to develop positive, healthy relationships and life-long character qualities that are based on God's principles.

Awana is divided into three different groups : Cubbies 3 - 5 years, Sparks K - 2nd Grade, and T & T 3rd - 5th Grade. In these separate groups kids experience large group time, game time, and handbook time. During large group time kids sing songs and work together through some of God's key promises. Game time is fun and interactive, and handbook time allows kids to work through age appropriate handbooks, creatively learning God's purpose for their lives.

JOIN HANDS

New obstacles are facing our world...and some with a vengeance. We are joining hands with individuals to help them on their journey of cancer, childhood obesity, arthritis, youth that lack support and others who just need a friend. We invite you to join hands with the Y and stand with your neighbors in support. Join the Y...by becoming a member, volunteering or donating.

annual support campaign

sponsors - businesses - organizations - individuals
We are looking for 300 individual donors this year for the Y. Last year...262 generous individuals donated to the Y. This year, we are asking everyone to join us for our annual support campaign...because with just \$1, more is possible for those in our area.

A smile goes a long way...and many of those smiles at the Y come from our volunteers. Stop by the Welcome Center at the Y or e-mail our staff and see how you can volunteer at the Y in 2016.
