### MEETING MINUTES - OCTOBER 29, 2019

## BOARD ROOM 4000 EAST RIVER ROAD NE ROCHESTER, MN 55906

#### 4:00 PM

## **Call to Order**

Attendee Name	Title	Status	Arrived
Brett Gorden	Board Member	Present	
Tim Haskin	Board Member	Absent	
Melissa Graner Johnson	Board Vice President	Present	
Brian Morgan	Board President	Present	
Michael Wojcik	Board Member	Present	

### 1. Approval of Agenda

1. **Motion to:** approve the agenda as presented

RESULT: APPROVED [UNANIMOUS]

MOVER: Melissa Graner Johnson, Board Vice President

**SECONDER:** Brett Gorden, Board Member

AYES: Brett Gorden, Melissa Graner Johnson, Brian Morgan, Michael

Wojcik

**ABSENT:** Tim Haskin

#### 2. Safety Moment

General Manager Mark Kotschevar spoke regarding all the safety measures RPU takes to reduce its liability exposure to the public. This includes tree trimming, responding to Gopher State locating requests for underground digging and the marking of those facilities, inspections of energized conductors throughout the City, inspections of poles, the contractor safety program and school safety programs.

#### 3. Approval of Minutes

- Public Utility Board Regular Meeting Sep 24, 2019 4:00 PM
- 2. **Motion to:** approve the minutes of Septebmer 24, 2019 as presented

RESULT: APPROVED [UNANIMOUS]

**MOVER:** Michael Wojcik, Board Member

SECONDER: Melissa Graner Johnson, Board Vice President

AYES: Brett Gorden, Melissa Graner Johnson, Brian Morgan, Michael

Wojcik

**ABSENT:** Tim Haskin

#### 4. Approval of Accounts Payable

## Regular Meeting Tuesday, October 29, 2019 4:00 PM

1. AP Board Listing

2. **Motion to:** approve the AP board listing as presented

RESULT: APPROVED [UNANIMOUS]
MOVER: Michael Wojcik, Board Member

**SECONDER:** Melissa Graner Johnson, Board Vice President

AYES: Brett Gorden, Melissa Graner Johnson, Brian Morgan, Michael

Wojcik

#### **NEW BUSINESS**

#### **Open Comment Period**

(This agenda section is for the purpose of allowing citizens to address the Utility Board. Comments are limited to 4 minutes, total comment period limited to 15 minutes. Any speakers not having the opportunity to be heard will be the first to present at the next Board meeting.)

President Morgan opened the meeting for public comment. Two people came forward to speak.

Tom Williamson, of Rochester, spoke regarding infrastructure and climate. He has observed that the street lights are much brighter and asked if we can get a lower wattage. Additionally, he stated that more renewable energy sources mean less asthma and heart disease.

Rick Morris, of the Rochester Sierra Club, presented two data points. The first is a case study of Denton, Texas, which has a plan to achieve 100 percent renewable energy supply by the end of 2020. The second is that modeling software is outdated and in 2020 the City should hire a firm using the latest modeling standards.

#### 5. Public Hearing

1. Wellhead Protection Plan Part II - Public Hearing

A public hearing was held for the amendment of RPU's Wellhead Protection Plan (WHHP), which is required under the Federal Safe Drinking Water Act and Minnesota Rules 4720.5100-4720.5590 to be updated at least every ten years. Environmental and Regulatory Affairs Coordinator Todd Osweiler said that RPU's previous plan, part 1 and part 2, had been approved by the Minnesota Department of Health (MDH) in 2007. Part 1 of RPU's current wellhead protection plan, pertaining to wellhead protection area and drinking water supply management area delineations, well and aquifer vulnerability assessments, was approved by the MDH in 2017. Part 2, pertaining to potential contaminant source inventory associated issues/opportunities and management plan, will be submitted to the MDH for final approval and was being presented to the Board as an informational item. Following approval by the MDH, the Board will be asked to adopt the amended WHPP.

No comments were received from the public during the public hearing.

## 6. Regular Agenda

1. Risk Property, General Liability and Automotive Insurance Renewals for 2020

Materials Manager Andrew Bianco presented a request to the Board for approval of utility insurance renewals for 2020. The all risk property insurance policy as originally quoted to RPU had a change when the offer fell through due to market

Minutes Acceptance: Minutes of Oct 29, 2019 4:00 PM (Approval of Minutes)

conditions, said Mr. Bianco, therefore RPU will return to its previous deductible level while working on options to lower rates. This changed the annual premium amount from \$314,719 to \$518,215. There was no change to the originally quoted premiums for general liability and automotive insurance. The policy terms are effective from November 1, 2019 through October 31, 2020.

Board Member Michael Wojcik moved to approved the block of 3 resolutions of contract agreements for all risk property insurance, general liability insurance and automotive insurance for 2020, with the amended resolution for all risk property insurance. Vice President Johnson seconded the motion. Motion passed.

Resolution: All Risk Property Insurance

BE IT RESOLVED by the Public Utility Board of the City of Rochester, Minnesota, to approve a contract agreement with Wortham Insurance/ARGUS and authorize the Mayor and the City Clerk to execute the agreement for

#### ALL RISK PROPERTY INSURANCE

The insurance agreement to be for a twelve month policy period commencing November 1, 2019, and expiring October 31, 2020.

The amount of the contract agreement not to exceed FIVE HUNDRED EIGHTEEN THOUSAND TWO HUNDRED FIFTEEN DOLLARS AND 00/100 (\$518,215.00).

Passed by the Public Utility Board of the City of Rochester, Minnesota, this 29th day of October, 2019.

RESULT: COUNCIL APPROVAL [UNANIMOUS]

MOVER: Michael Wojcik, Board Member

**SECONDER:** Melissa Graner Johnson, Board Vice President

AYES: Brett Gorden, Melissa Graner Johnson, Brian Morgan, Michael

Wojcik

**ABSENT:** Tim Haskin

Resolution: Excess General Liability Insurance

BE IT RESOLVED by the Public Utility Board of the City of Rochester, Minnesota, to approve a contract agreement with Associated Electric and Gas Insurance Services, Ltd. (AEGIS) and authorize the Mayor and the City Clerk to execute the agreement for

#### EXCESS GENERAL LIABILITY INSURANCE

The insurance agreement to be for a twelve month policy period commencing November 1, 2019, and expiring October 31, 2020.

The amount of the contract agreement not to exceed THREE HUNDRED TEN THOUSAND THREE HUNDRED NINETY-TWO AND 00/100 DOLLARS (\$310,392.00).

Passed by the Public Utility Board of the City of Rochester, Minnesota, this 29th day of October, 2019.

Regular Meeting Tuesday, October 29, 2019 4:00 PM

RESULT: COUNCIL APPROVAL [UNANIMOUS]

MOVER: Michael Wojcik, Board Member

SECONDER: Melissa Graner Johnson, Board Vice President

#### COMMERCIAL AUTOMOBILE AND GENERAL LIABILITY INSURANCE

The insurance agreement to be for a twelve month period commencing November 1, 2019, and expiring October 31, 2020.

The amount of the contract agreement not to exceed ONE HUNDRED FORTY THOUSAND EIGHT HUNDRED FORTY FOUR AND 00/100 DOLLARS (\$140,844.00).

Passed by the Public Utility Board of the City of Rochester, Minnesota, this 29th day of October, 2019.

RESULT: COUNCIL APPROVAL [UNANIMOUS]

MOVER: Michael Wojcik, Board Member

**SECONDER:** Melissa Graner Johnson, Board Vice President

AYES: Brett Gorden, Melissa Graner Johnson, Brian Morgan, Michael

Wojcik

**ABSENT:** Tim Haskin

#### Land Purchase - 1325 Marion Road SE

Buyer Mona Hoeft presented a request to the Board for approval of a land purchase agreement for two of four parcels at 1325 Marion Road SE for the construction of a new RPU electric substation in SE Rochester. The total purchase price of the two parcels is \$158,311 with a closing date of November 5, 2019. The purchase agreement will require City Council approval on November 4, 2019. RPU is continuing negotiations for the purchase of the remaining two parcels.

Resolution: Land Purchase - 1325 Marion Road SE

BE IT RESOLVED by the Public Utility Board of the City of Rochester, Minnesota, to approve a resolution authorizing the purchase agreement for 1325 Marion Road SE and authorize the agreement to move forward for approval of the City Council.

Passed by the Public Utility Board of the City of Rochester, Minnesota, this 29<sup>th</sup> day of October, 2019.

Regular Meeting Tuesday, October 29, 2019 4:00 PM

RESULT: COUNCIL APPROVAL [UNANIMOUS]

**MOVER:** Melissa Graner Johnson, Board Vice President

SECONDER: Michael Wojcik, Board Member

AYES: Brett Gorden, Melissa Graner Johnson, Brian Morgan, Michael

Wojcik

**ABSENT:** Tim Haskin

3. Approval of the Electric Service Availability Policy

The Board's Electric Service Availability Policy was reviewed and revised by staff with minor changes and presented to the Board for approval. General Manager Mark Kotschevar said the policy was sent to the Board's operations committee for review and comment and was now ready for Board approval.

Resolution: Electric Service Availability

BE IT RESOLVED by the Public Utility Board of the City of Rochester, Minnesota, to approve the:

Electric Service Availability Policy

Passed by the Public Utility Board of the City of Rochester, Minnesota, this 29th day of October, 2019.

RESULT: COUNCIL APPROVAL [UNANIMOUS]

MOVER: Brett Gorden, Board Member SECONDER: Michael Wojcik, Board Member

AYES: Brett Gorden, Melissa Graner Johnson, Brian Morgan, Michael

Wojcik

**ABSENT:** Tim Haskin

4. Preliminary 2020 Water and Electric Utility Budgets

Director of Corporate Services Peter Hogan presented RPU's preliminary 2020 water and electric utility budgets to the Board, requesting approval to provide public notice of proposed rate adjustments. The budgets were previously presented to the Board's finance committee on October 17, 2019.

For the electric utility, a zero percent overall rate increase is proposed, with the residential customer charge decreasing from \$19.50 per month to \$18.30 per month and with a 1.7 percent increase to the energy charge in order to remain revenue neutral. The 2020 electric budget includes the costs of replacing aging infrastructure and the construction of a new electric substation.

For the water utility, a 3.5 percent general rate increase is proposed, resulting in a 47 cents per month increase on the average residential customer bill, due to expected growth in customers of 1.0 percent and growth in total consumption of 2.85 percent in 2020. There will also be a 28 cents per month increase in the state's mandated water testing fee that will be passed on to the customer, said Mr. Hogan. Water projects included in the 2020 budget include water main replacements, City-planned street reconstruction, Destination Medical Center development affecting water infrastructure, distribution system expansion and continued water conservation programs and education. Additionally, there is a proposed increase of \$0.00180 per kilowatt hour to the clean air rider rate.

Resolution: Notice of Proposed Rate Change in 2020

BE IT RESOLVED by the Public Utility Board of the City of Rochester, Minnesota,

Minutes Acceptance: Minutes of Oct 29, 2019 4:00 PM (Approval of Minutes)

to authorize staff to give preliminary notice to the public of the proposed 3.5% increase to the general water rates and a \$0.28 per month increase in the state mandated water testing fee for 2020 and

BE IT RESOLVED by the Public Utility Board of the City of Rochester, Minnesota, to authorize staff to give preliminary notice to the public of the proposed 0.0% overall adjustment to the general electric revenue requirement for 2020 with adjustments to the residential customer charge, energy charges and the clean air rider.

Passed by the Public Utility Board of the City of Rochester, Minnesota, this 29th day of October, 2019.

RESULT: COUNCIL APPROVAL [UNANIMOUS]

MOVER: Michael Wojcik, Board Member

**SECONDER:** Melissa Graner Johnson, Board Vice President

AYES: Brett Gorden, Melissa Graner Johnson, Brian Morgan, Michael

Wojcik

**ABSENT:** Tim Haskin

## 7. Board Liaison Reports

President Morgan and Vice President Johnson met with the Board's finance committee on October 17, 2019 to review the preliminary RPU 2020 water and electric utility budgets.

## 8. General Managers Report

General Manager Mark Kotschevar shared that he attended the Southern Minnesota Municipal Power Agency's (SMMPA) annual meeting on October 10, 2019.

Director of Corporate Affairs Peter Hogan reported on the implementation of RPU's new customer care and billing system, Cayenta. The mock go-live phase occurred two weekends ago. The team is currently working on 15 open items, he said, but none that will delay the current schedule. The planned go-live date is November 12, 2019.

Director of Power Resources Jeremy Sutton is currently negotiating with vendors for RPU's proposed solar garden program and plans to come before the Board with the results of the request for proposal for the project at a future date.

#### 9. Division Reports & Metrics

In discussion of RPU's division reports and metrics for September 2019, President Morgan commended the utility for four months of no recordable injuries.

#### 10. Other Business

In other business, Board Member Michael Wojcik referenced a recommendation made by the League of Minnesota Cities asking boards and committees to provide answers to citizens at the next meeting following an open comment period. General Manager Mark Kotschevar replied that the Board could decide to do that.

Mr. Wojcik inquired about the drafting of a new Board policy that he requested providing guidelines for Undergrounding of electric utility infrastructure. Mr. Kotschevar said staff is working on the policy.

## FOR BOARD ACTION

Agenda Item # (ID # 11266) Meeting Date: 11/12/2019

**SUBJECT: 2020 Electric Utility Budget** 

**PREPARED BY: Peter Hogan** 

#### ITEM DESCRIPTION:

The preliminary 2020 electric utility budget was reviewed with the finance and audit committee on October 17, 2019 and the full Board on October 29, 2019. The budget as presented reflects a reduction of approximately \$1,671 million in operating and capital expenses from staff's original submissions in order to meet the 2017 cost of service study recommendations.

The significant drivers for the 2020 budget are:

- Proposed overall electric rate adjustment of zero percent
- No significant growth in KWH sales, but continued growth in service points
- Our SMMPA wholesale cost for 2020 will be unchanged. The 2019 reduction of 4% which will continue to flow through our power cost adjustment in 2020.
- Additional investments to address aging distribution infrastructure
- South East substation to handle load growth in the downtown and southern side
  of the City
- Utilize savings from the Westside Energy Station and Hydro project to fund new substation instead of borrowing funds in 2020
- Continued funding for our energy conservation programs
- Addition of 3 FTE's Lead Line Worker, IT System Administrator and replacement of a contract position
- Movement towards the financial targets set based on the adoption of the utility method of rate setting in 2014:
  - o Alignment of variable and fixed costs with corresponding variable and fixed revenues reduces cross subsidies and improves financial sustainability
  - o Change in Net Assets goal for 2020: \$14,700,000; Budget \$11,688,000
  - Debt Service Coverage Ratio, excluding payment in lieu of taxes (PILOT),
     of 3.0 times or greater; Budget projects 2.9 times in 2020
  - o Minimum cash reserves goal for 2020: \$57,408,000; Budget \$79,892,000

Summary financial sheets are attached reflecting the recommended budget. Staff will be available to answer questions.

# RESOLUTION

BE IT RESOLVED by the Public Utility Board of the City	of Rochester, Minnesota, to approve the
2020 electric utility capital, including multi submitted	i-year projects, and operating budgets as
BE IT FURTHER RESOLVED by the Public Utility Boat that the Common Council of the said City is requested to	
2020 electric utility capital, including multi	i-year projects, and operating budgets.
Passed by the Public Utility Board of the City of R November, 2019.	cochester, Minnesota, this 12th day o
	President

Secretary

## FOR BOARD ACTION

Agenda Item # (ID # 11263) Meeting Date: 11/12/2019

**SUBJECT: 2020 Electric Utility Rate Adjustment** 

**PREPARED BY: Peter Hogan** 

#### ITEM DESCRIPTION:

Rochester Home Rule Charter Chapter 15.05, Subd. 3 states, "The public utility board may adopt, amend, and rescind such rules and regulations as it may deem necessary for the control, management, and operation of the public utilities under its jurisdiction. The board shall, with the concurrence of the common council, fix the rates to be charged for the availability and use of the public utility commodities and services under its jurisdiction. Rates shall be **reasonable and compensatory** so as to cover all of the costs of the respective public utility and shall be **uniform for all consumers within the same class**, but different rates may be established for different classifications by the board. Rates within the city corporate limits may be less but shall be no greater than rates for the same classification outside the city limits."

Based on the Charter the RPU Board has further developed a policy for determining rates. The main objective of the policy is, "to recover, through the application of rates and charges for utility services, revenues which are sufficient to meet the financial obligations of each independent utility enterprise. Further, the Board intends to apply rates and charges which are equitable among customer or classes of customers based on the Utility Basis of (generally accepted industry) rate-making principles."

Based on this guidance staff conducted a Cost of Service Study for the electric utility during 2017. The study results were presented to the Board July 25, 2017. The study was accepted and place on file.

During the October 17<sup>th</sup>, 2019 budget review by the Finance Committee of the Board and October 29, 2019 full Board review of the 2020 budget for the electric utility, management recommended that the Board approve a zero percent overall general rate increase with an adjustment of the residential customer charge from \$19.50 per month to \$18.30 per month and a corresponding increase of 1.7% in the residential energy charge to collect the total residential revenue requirement. This recommendation is based on analysis of the residential customer charge that was performed during 2019. During the 2020 cost of service study, the customer charge will be reassessed to include the cost of the new billing system and revenue generated by the line extension policy.

The impact on a typical 2020 monthly residential electric bill with the following use will be:

Average Monthly	\$18.30
Use	Customer Charge
400 kwh	(\$0.42)
600 kwh	(\$0.03)

# FOR BOARD ACTION

Agenda Item # (ID # 11263) Meeting Date: 11/12/2019

1,000 kwh \$0.75

The wording related to the calculation of demand for ratchet purposes has been modified in the proposed rate tariff to better reflect how peak demand is currently calculated. This wording does not change how peak demand and ratchet are calculated.

The Board gave its approval for staff to publish proposed rate adjustments based on the 2020 budget presentation. This notice was given on November 2, 2019 in the newspaper of record and the RPU website.

#### **UTILITY BOARD ACTION REQUESTED:**

Approve and recommend City Council approval of the fees and an overall rate increase of zero percent in 2020 with adjustments to residential customer charge and energy charge to take effect on or about January 1, 2020, according to the attached fee schedules and rate tariffs.

#### RATE SCHEDULE RES SHEET 1 OF 1

#### **RESIDENTIAL SERVICE**

#### **AVAILABILITY:**

At all locations where facilities of adequate capacity and suitable voltage are adjacent to the premises to be served. Where service desired by the customer is not adjacent to the premises to be served, additional contract arrangements may be required prior to service being furnished.

#### **APPLICATION:**

To electric service required for residential purposes in individual private dwellings and in individually metered apartments when such service is supplied at one point of delivery and measured through one meter. Existing single metered, multi-unit dwellings having not in excess of three separate dwelling units in the same structure may be served under this rate.

#### **CHARACTER OF SERVICE:**

Single phase, 60 Hertz, 120/240 volts alternating current.

RATE:	<u>2019</u>	<u>2020</u>
Customer Charge:	\$ <del>19.50</del>	\$18.30
Energy Charge:		
Non Summer Energy / kWh	10.545¢	$10.726\phi$

Non Summer Energy / kWh  $10.545\phi$   $10.726\phi$  Summer Energy / kWh  $12.596\phi$   $12.812\phi$ 

Definition of Season: Summer months are June through September. Non-summer months are January through May and October through December.

#### **POWER COST ADJUSTMENT:**

Bills computed under this rate schedule are subject to adjustment in accordance with the Power Cost Adjustment (PCA).

**MINIMUM BILL per month:**2019

\$18.30

**PAYMENT:** Payments are due on or before the due date.

#### **CONDITIONS OF DELIVERY:**

- 1. Service furnished under this rate schedule is subject to applicable provisions of RPU's published Electric Service Rules and Regulations.
- 2. RPU shall not be liable for any damage or loss sustained by customer resulting from interruptions, deficiencies, or imperfections of service provided under this rate.
- 3. Energy furnished under this rate shall not be resold.
- 4. This tariff assumes use of metering technology capable of being read using automated equipment. Customers choosing the option to have a meter that is not capable of being read using automated equipment, thus requiring a manual reading, are subject to a monthly surcharge. Additional one-time meter change-out fees also apply. (See the RPU Miscellaneous Fee Schedule for the amount of the monthly surcharge and the one-time meter change-out fees).

Approved by Rochester Public Utility Board: November 12, 2019 Effective Date: January 1, 2020

## RATE SCHEDULE RES-DF SHEET 1 OF 2

#### RESIDENTIAL SERVICE - DUAL FUEL

#### **AVAILABILITY:**

Available only to existing dual fuel customers transferred from People's Cooperative Power Association's (PCPA) electrical system to RPU's system as part of RPU's electric service territory acquisitions.

#### **APPLICATION:**

To electric heating service required for residential purposes in individual private buildings. Such electric heating load shall be metered separately from the rest of the service.

#### **CHARACTER OF SERVICE:**

Single phase, 60 Hertz, 120/240 volts alternating current.

**RATE:** 2019 2020 Energy Charge / kWh 7.870€ 8.005€

#### **POWER COST ADJUSTMENT:**

Bills computed under this rate schedule are subject to adjustment in accordance with the Power Cost Adjustment (PCA).

#### **MINIMUM BILL:**

Energy usage.

#### **PAYMENT:**

Payments are due on or before the due date.

#### **CONDITIONS OF DELIVERY:**

- 1. Service under this rate is only for electric heating. All other electrical loads shall be metered under the RES residential service rate.
- 2. Customer must keep his or her alternate fuel source heating system in satisfactory operating condition.
- 3. RPU reserves the right to transfer RES-DF customers from the primary electric heat source to the alternate fuel source at any such time that the electric heating load would add to RPU's monthly electric peak.
- 4. Customers that remove existing dual fuel heating systems shall not be eligible for the RES-DF rate with replacement heating systems.
- 5. Service furnished under this rate schedule is subject to applicable provisions of RPU's published Electric Service Rules and Regulations.

### RATE SCHEDULE RES-DF SHEET 2 OF 2

### RESIDENTIAL SERVICE - DUAL FUEL (Cont.)

#### **CONDITIONS OF DELIVERY: (cont.)**

- 6. RPU shall not be liable for any damage or loss sustained by customer resulting from interruptions, deficiencies, or imperfections of service provided under this rate.
- 7. Energy furnished under this rate shall not be resold.
- 8. This tariff assumes use of metering technology capable of being read using automated equipment. Customers choosing the option to have a meter that is not capable of being read using automated equipment, thus requiring a manual reading, are subject to a monthly surcharge. Additional one-time meter change-out fees also apply. (See the RPU Miscellaneous Fee Schedule for the amount of the monthly surcharge and the one-time meter change-out fees).

# RATE SCHEDULE RESELGEO SHEET 1 OF 2

#### RESIDENTIAL SERVICE - HIGH EFFICIENCY HVAC

#### **AVAILABILITY:**

To RPU residential customers that:

- 1. Use either an air source or ground source heat pump system as the only source of heating and cooling in their home.
- 2. Use an electric water heater (usually connected to a desuperheater on the heat pump) as their only source of domestic water heating.
- 3. Receive prior approval of the equipment from RPU. Note that equipment must be rated by the Air-Conditioning, Heating, and Refrigeration Institute (AHRI)\*, and at the time of installation, meet the minimum efficiency requirements found on the Residential Electric Efficiency Rebate Application in effect at the time. The current application is available at <a href="https://www.rpu.org">www.rpu.org</a>.

**APPLICATION:** Electric service required for residential purposes in individual private dwellings where service is supplied at one point of delivery and measured through one meter.

#### **CHARACTER OF SERVICE:**

Single phase, 60 hertz, 120/240 volts alternating current.

RATE:	<u>2019</u>	<u>2020</u>
Customer Charge	<del>\$ 19.50</del>	\$18.30
Energy Charge: Winter first 600 kWh Winter over 600 kWh	<del>10.545¢</del> <del>8.836¢</del>	10.726¢ 8.988¢
Summer kwh	<del>12.596¢</del>	12.812¢

Definition of Season: Summer months are June through September. Non-summer months are

January through May and October through December.

<sup>\*</sup>For air source and ground source heat pumps the efficiency ratings are determined using the Air-Conditioning, Heating, and Refrigeration Institute's (AHRI) directory, which may be found at <a href="https://www.ahridirectory.org">www.ahridirectory.org</a>.

Bills computed under this rate schedule are subject to adjustment in accordance with the Power Cost Adjustment (PCA).

#### **MINIMUM BILL:**

**MINIMUM BILL per month:**2019

\$18.30

#### **PAYMENT:**

Payments are due on or before the due date.

#### **CONDITIONS OF DELIVERY:**

- 1. Service under this rate is only for air-source or ground-source heat pump systems that meet the stated efficiency requirements as explained in the Availability subhead of this rate schedule.
- 2. Service provided under this rate is subject to applicable provisions of RPU's published Electric Service Rules and Regulations.
- 3. Energy provided under this rate shall not be resold.
- 4. RPU shall not be liable for any damage or loss sustained by the customer resulting from interruptions, deficiencies, or imperfections of service provided under this rate.
- 5. This tariff assumes use of metering technology capable of being read using automated equipment. Customers choosing the option to have a meter that is not capable of being read using automated equipment, thus requiring a manual reading, are subject to a monthly surcharge. Additional one-time meter change-out fees also apply. (See the RPU Miscellaneous Fee Schedule for the amount of the monthly surcharge and the one-time meter change-out fees).

## RATE SCHEDULE MGS SHEET 1 OF 2

#### MEDIUM GENERAL SERVICE

#### **AVAILABILITY:**

At all locations for loads where the demand is at least 75 kW or more for three or more billing periods in a given calendar year, but less than 1,000 kW, and where facilities of adequate capacity and suitable voltage are adjacent to the premises to be served. For loads where the service desired by the customer is not adjacent to the premises to be served, additional contract arrangements may be required prior to service being furnished. Customers with minimum loads of at least 50kW for three or more billing periods in a given calendar year but less than 75 kW can choose to be classified as Medium General Service (MGS) and be billed under the MGS rate schedule below. The choice, once elected, is irrevocable for 12 billing periods, and remain in force unless revoked in writing by the customer.

#### **APPLICATION:**

To commercial, industrial, and governmental customers with all service taken at one point and measured through one meter. Also applicable to temporary service in accordance with RPU's published Electric Service Rules and Regulations. Not applicable to standby service.

#### **CHARACTER OF SERVICE:**

Single or three phase, 60 Hertz, alternating current at any one of the standard secondary service voltages as described in RPU's published Electric Service Rules and Regulations.

#### RATE:

Demand Charge:

Non-Summer /KW	\$ 17.830
Summer /KW	\$ 24.060

**Energy Charge:** 

Non-Summer / kWh	5.650¢
Summer / kWh	5.650¢

Definition of Season: Summer months are June through September. Non-summer months are January

through May and October through December.

#### **POWER COST ADJUSTMENT:**

Bills computed under this rate schedule are subject to adjustment in accordance with the Power Cost Adjustment (PCA).

#### **POWER FACTOR ADJUSTMENT:**

The customer agrees to maintain an average power factor of 0.95 or greater for the billing period and to prevent a leading power factor. If the customer's average power factor is less than 0.95 for the billing period, the billing demand will be determined by multiplying the measured demand by 0.95 and dividing the results by the customer's average power factor. The average power factor is defined to be the quotient obtained by dividing the kWh used during the month by the square root of the sum of the squares of the kWh used and the lagging reactive kilovoltampere-hours supplied during the same period. The customer's average power factor will be determined by means of permanently installed meters.

## PRIMARY METER DISCOUNT:

Customers approved for metering at 13.8 kV will receive a discount of 1.25% on base rate charges for measured demand and energy.

### RATE SCHEDULE MGS SHEET 2 OF 2

#### MEDIUM GENERAL SERVICE (Cont.)

#### TRANSFORMER OWNERSHIP CREDIT:

Customers owning transformers will receive a credit on each month's measured demand.

Credit per KW

\$ 0.35

#### **DETERMINATION OF DEMAND:**

Measured demand is defined as the maximum rate at which energy is used for any period of fifteen consecutive minutes during the billing period. The billing demand shall be the greater of the measured demand for the billing period adjusted for power factor, or 50% of the maximum measured demand for the most current June-September billing periods adjusted for power factor, ratcheted demand. The ratcheted demand is the maximum measured demand adjusted for power factor of four consecutive billing cycles during the most recent May through October billing periods depending on the billing cycle. Billing periods may not coincide with calendar months.

#### **MINIMUM BILL:**

The minimum bill shall not be less than the billing demand, as provided above, whether or not energy is used.

#### **PAYMENT:**

Payments are due on or before the due date.

#### **CONDITIONS OF DELIVERY:**

- 1. Service furnished under this rate schedule is subject to applicable provisions of RPU's published Electric Service Rules and Regulations.
- 2. Unless authorized by separate written agreement, standby electric generating equipment installed by the customer shall not be interconnected or operated in parallel with the RPU system. Customer shall own, install, operate, and maintain electrical interlocking equipment, which will prevent parallel operation, and such equipment shall be approved by RPU prior to installation.
- 3. RPU shall not be liable for any damage or loss sustained by customer resulting from interruptions, deficiencies, or imperfections of service provided under this rate.
- 4. Energy furnished under this rate shall not be resold.

# RATE SCHEDULE MGS-HEF SHEET 1 OF 3

#### MEDIUM GENERAL SERVICE - HIGH EFFICIENCY HVAC

#### **AVAILABILITY:**

At all locations for loads where the demand is at least 75 kW or more for three or more billing periods in a given calendar year, but less than 1,000 kW, and where facilities of adequate capacity and suitable voltage are adjacent to the premises to be served, and to customers who:

- 1. Use either an air source or ground source heat pump as the only source of heating and cooling in their facility.
- 2. Use an electric water heater (usually connected to a desuperheater on the heat pump) as the only source of water heating.
- 3. Receive prior approval of the equipment from RPU. Note that equipment must be rated by the Air-Conditioning, Heating, and Refrigeration Institute (AHRI)\* and at the time of installation, meet the minimum efficiency requirements found on the Commercial Heat Pumps Rebate Application in effect at the time. The current application is available at www.rpu.org.
- 4. Service under this rate must be separately metered from other facility loads.

\*For air source and ground source heat pumps the efficiency ratings are determined using the Air-Conditioning, Heating and Refrigeration Institute's (AHRI) directory, which may be found at www.ahridirectory.org.

Note: Other all-electric HVAC systems may be considered for this rate if they meet the stated efficiency standards. To have a system considered, customers must submit an engineering analysis documenting the efficiency of the system.

#### **APPLICATION:**

To commercial, industrial, governmental, and other types of Medium General Service customers reconfiguring their current electric service, or adding a new service, to separately meter their high efficiency HVAC equipment. Not applicable to standby service.

#### **CHARACTER OF SERVICE:**

Single or three phase 60 Hertz, alternating current at any one of the standard secondary service voltages as described in RPU's published Electric Service Rules and Regulations.

# RATE SCHEDULE MGS-HEF SHEET 2 OF 3

### MEDIUM GENERAL SERVICE - HIGH EFFICIENCY HVAC (Cont.)

**RATE:** 

Demand Charge per KW:

Non-Summer \$ 16.500 Summer \$ 20.640

Energy Charge per kWh:

Non-Summer 4.724¢ Summer 5.881¢

Definition of Season: Summer months are June through September. Non-summer months

are January through May and October through December.

### **POWER COST ADJUSTMENT:**

Bills computed under this rate schedule are subject to adjustment in accordance with the Power Cost Adjustment (PCA).

#### **POWER FACTOR ADJUSTMENT:**

The customer agrees to maintain an average power factor of 0.95 or greater for the billing period and to prevent a leading power factor. If the customer's average power factor is less than 0.95 for the billing period, the billing demand will be determined by multiplying the measured demand by 0.95 and dividing the results by the customer's average power factor. The average power factor is defined to be the quotient obtained by dividing the kWh used during the month by the square root of the sum of the squares of the kWh used and the lagging reactive kilovoltampere-hours supplied during the same period. The customer's average power factor will be determined by means of permanently installed meters.

#### PRIMARY METER DISCOUNT:

Customers approved for metering at 13.8 kV will receive a discount of 1.25% on base rate charges for measured demand and energy.

#### TRANSFORMER OWNERSHIP CREDIT:

Customers owning transformers will receive a credit on each month's measured demand.

Credit per KW \$ 0.35

#### **DETERMINATION OF DEMAND:**

Measured demand is defined as the maximum rate at which energy is used for any period of fifteen consecutive minutes during the billing period. The billing demand shall be the greater of the measured demand for the billing period adjusted for power factor, or 50% of the the maximum measured demand for the most current June-September billing periods adjusted for power factor ratcheted demand. The ratcheted demand is the maximum measured demand adjusted for power factor of four consecutive billing cycles during the most recent May through October billing periods depending on the billing cycle. Billing periods may not coincide with calendar months.

For an existing facility reconfiguring its current electric service to come under this rate by separately metering its high efficiency HVAC equipment, the ratchet will be removed from the current electric service. The ratchet will be effective beginning in October following the first separately metered high efficiency HVAC service during one of the summer billing periods, June-September May through October billing periods described above.

At that time the ratchet will be reapplied to the current electric service and will be applied for the first time to the high-efficiency HVAC service.

Packet Pg. 35

## MEDIUM GENERAL SERVICE - HIGH EFFICIENCY HVAC (Cont.)

#### **MINIMUM BILL:**

The minimum bill shall not be less than the billing demand, as provided above, whether or not energy is used.

#### **PAYMENT:**

Payments are due on or before the due date.

#### **CONDITIONS OF DELIVERY:**

- 1. Service under this rate is only for air source or ground source heat pumps and any other all-electric HVAC systems that meet the stated efficiency requirements as explained in the Availability subhead of this rate schedule.
- 2. Service under this rate must be separately metered from other facility loads.
- 3. Since the HVAC system must be separately metered for this rate, the customer is responsible for any rewiring and its associated costs.
- 4. Service provided under this rate is subject to applicable provisions of RPU's published Electric Service Rules and Regulations.
- 5. Energy provided under this rate shall not be resold.
- 6. RPU shall not be liable for any damage or loss sustained by the customer resulting from interruptions, deficiencies, or imperfections of service provided under this rate.
- 7. Unless authorized by separate written agreement, standby electric generating equipment installed by the customer shall not be interconnected, or operated in parallel, with the RPU system. Customer shall own, install, operate, and maintain electrical interlocking equipment, which will prevent parallel operation, and such equipment shall be approved by RPU prior to installation.

### RATE SCHEDULE MGS-TOU SHEET 1 OF 3

### MEDIUM GENERAL SERVICE - TIME-OF-USE

### **AVAILABILITY:**

At all locations for loads where the demand is at least 75 kW or more for three or more billing periods in a given calendar year, but less than 1,000 kW, and where facilities of adequate capacity and suitable voltage are adjacent to the premises to be served. For loads where the service desired by the customer is not adjacent to the premises to be served, additional contract arrangements may be required prior to service being furnished. RPU reserves the right to limit both the number of customers and the amount of load taken under this rate schedule.

#### **APPLICATION:**

To commercial, industrial, and governmental customers with all service taken at one point and measured through one meter. All electrical requirements at one location shall be taken under this rate schedule. Not applicable to temporary or standby service.

### **CHARACTER OF SERVICE:**

Single or three phase, 60 Hertz, alternating current at any one of the standard secondary service voltages as described in RPU's published Electric Service Rules and Regulations.

### **RATE:**

Meter Charge: Any additional meter charge for costs above RPU's standard MGS

meter costs.

Non-Summer:

On-peak Demand / KW	\$ 17.830
Off-peak Demand/ KW	\$ 1.933
Energy Charge / kWh	5.724¢

Summer:

On-peak Demand / KW	\$ 24.060
Off-peak Demand / KW	\$ 1.933
Energy Charge / kWh	5.724¢

Definition of Season: Summer months are June through September. Non-summer months

are January through May and October through December.

Definition of On-Peak Demand: The maximum kW used by the customer in any fifteen-minute period

between the hours of 10:00 a.m. and 10:00 p.m. Monday through

Friday.

Definition of Off-Peak Demand: The maximum kW used by the customer in any fifteen-minute period

during the off-peak period.

### **POWER COST ADJUSTMENT:**

Bills computed under this rate schedule are subject to adjustment in accordance with the Power Cost Adjustment (PCA).

### RATE SCHEDULE MGS-TOU SHEET 2 OF 3

### MEDIUM GENERAL SERVICE - TIME-OF-USE (Cont.)

### **POWER FACTOR ADJUSTMENT:**

The customer agrees to maintain an average power factor of 0.95 or greater for the billing period and to prevent a leading power factor. If the customer's average power factor is less than 0.95 for the billing period, the billing demand will be determined by multiplying the measured demand by 0.95 and dividing the results by the customer's average power factor. The average power factor is defined to be the quotient obtained by dividing the kWh used during the month by the square root of the sum of the squares of the kWh used and the lagging reactive kilovoltampere-hours supplied during the same period. The customer's average power factor will be determined by means of permanently installed meters.

#### PRIMARY METER DISCOUNT:

Customers approved for metering at 13.8 kV will receive a discount of 1.25% on base rate charges for measured demand and energy.

### TRANSFORMER OWNERSHIP CREDIT:

Customers owning transformers will receive a credit on each month's measured demand.

Credit per KW \$ 0.35

### **DETERMINATION OF DEMAND:**

Measured demand is defined as the maximum rate at which energy is used for any period of fifteen consecutive minutes during the billing period.

#### **BILLING DEMAND:**

The on-peak billing demand shall be the greater of the measured on-peak demand for the billing period adjusted for power factor, or 50% of the the maximum measured demand for the most current June-September billing periods adjusted for power factor. ratcheted on-peak demand. The ratcheted on-peak demand is the maximum measured on-peak demand adjusted for power factor of four consecutive billing cycles during the most recent May through October billing periods depending on the billing cycle. Billing periods may not coincide with calendar months.

The off-peak billing demand shall be the measured off-peak demand for the billing period adjusted for power factor less the on-peak billing demand for the billing period.

The total billing demand shall be the sum of the on-peak billing demand and the off-peak billing demand.

#### **MINIMUM BILL:**

The minimum bill shall not be less than the billing demand, as provided above, whether or not energy is used plus any meter charge.

### **PAYMENT:**

Payments are due on or before the due date.

### RATE SCHEDULE MGS-TOU SHEET 3 OF 3

### MEDIUM GENERAL SERVICE - TIME-OF-USE (Cont.)

#### **CONDITIONS OF DELIVERY:**

- 1. Service under this rate will be made available at the option of the medium general service customer, subject to the availability of the necessary TOU metering equipment.
- 2. Customers converting to the MGS-TOU rate from the MGS rate shall make a one-time payment to RPU for any conversion cost above the normal cost to install MGS-TOU metering.
- 3. A customer may switch back to the MGS rate providing the customer gives RPU at least 60 days notice and agrees to pay any metering conversion costs.
- 4. Service furnished under this rate schedule is subject to applicable provisions of RPU's published Electric Service Rules and Regulations.
- 5. Unless authorized by separate written agreement, standby electric generating equipment installed by the customer shall not be interconnected or operated in parallel with the RPU system. Customer shall own, install, operate, and maintain electrical interlocking equipment, which will prevent parallel operation, and such equipment shall be approved by RPU prior to installation.
- 6. RPU shall not be liable for any damage or loss sustained by customer resulting from interruptions, deficiencies, or imperfections of service provided under this rate.

Approved by Rochester Public Utility Board: Effective Date:

November 12, 2019 January 1, 2020

### RESOLUTION

BE IT RESOLVED by the Public Utility Board of the City of Rochester, Minnesota, to approve an overall general rate increase of zero percent for 2020 with adjustments to the residential customer charge and energy charge according to the attached rate schedules and tariffs, effective on or about January 1, 2020.

BE IT FURTHER RESOLVED by the Public Utility Board of the City of Rochester, Minnesota, that the Common Council of the said City is requested to approve the rate schedules and tariffs, to take effect on or about January 1, 2020.

Passed by the Public Utility Board of the City of Rochester, Minnesota, this 12<sup>th</sup> day of November 2019.

President	
 Secretary	

### FOR BOARD ACTION

Agenda Item # (ID # 11262) Meeting Date: 11/12/2019

**SUBJECT: 2020 Water Utility Budget** 

**PREPARED BY: Peter Hogan** 

### **ITEM DESCRIPTION:**

The preliminary budget for the water utility was presented to the finance and audit committee of the Board on October 17, 2019 and the full Board on October 29, 2019, and incorporates a 3.5% general rate increase. This is in keeping with the cost of service study conducted in 2019 and the guidance given to management during the review of the cost of service study on September 24, 2019

The significant drivers for the 2020 Water Utility budget are:

- o Adoption of the utility method (Industry Standard) of rate setting
  - Sustainability: Rates set to recover revenue requirement and based on cost of service
  - o Establishing targeted change in net assets to fund operations and future capital replacements \$3,446K; 2020 Budget \$ 1,618K
  - o Establishing a minimum cash reserves Per policy \$7,641K; 2020 Budget \$8,516K
- o Addition of one FTE, Lead Water Distribution Worker, driven by growth of he City
- o DMC street reconstructions (\$1,950K)
- o Distribution system expansion (\$1,431K)

The budget supports the need for continued investment in infrastructure for both growth and replacement, while working toward funding the maintenance and replacement reserves to avoid large unfunded outlays of capital in future years.

Summary financial sheets are attached reflecting the recommended budget. Staff will be available to answer questions.

#### UTILITY BOARD ACTION REQUESTED:

Management recommends that the Board approve and request City Council approval of the RPU Water Utility capital, including multi year projects, and operating budget for 2020.

### **BASIC ASSUMPTIONS**

Interest Earnings Rate: 1.80%
 Average Salary Expense Change: 3.2%

(excluding headcount additions) (consists of COLA, merit and promotion increases)

• Change in Full-time Equivalents: 1

• Minimum Cash Reserve Requirement: Policy Amount \$7,908,100

### RETAIL REVENUES / SALES

• Revenue Adjustment: 3.5% proposed

• Water CCF Sales Forecast: 2.85% Increase from 2019 Projected Sales

• Total Water Utility Customers: 1.2% Increase over Y/E 2018 Projected Customers

• Forecast Assumes Normal Weather: 523 Cooling Degree Days,

23.9 Inches Summer Rainfall

### **OTHER ITEMS**

• In Lieu of Tax forecast increasing \$17,179 to a total of \$378,887.

Secretary

### FOR BOARD ACTION

Agenda Item # (ID # 11260) Meeting Date: 11/12/2019

**SUBJECT: 2020 Water Utility Rate Adjustment** 

PREPARED BY: Peter Hogan

### **ITEM DESCRIPTION:**

Rochester Home Rule Charter Chapter 15.05, Subd. 3 states, "The public utility board may adopt, amend, and rescind such rules and regulations as it may deem necessary for the control, management, and operation of the public utilities under its jurisdiction. The board shall, with the concurrence of the common council, fix the rates to be charged for the availability and use of the public utility commodities and services under its jurisdiction. Rates shall be **reasonable and compensatory** so as to cover all of the costs of the respective public utility and **shall be uniform for all consumers within the same class**, but different rates may be established for different classifications by the board. Rates within the city corporate limits may be less but shall be no greater than rates for the same classification outside the city limits."

Based on the Charter, the RPU Board has further developed a policy for determining rates. The main objective of the policy is, "to recover, through the application of rates and charges for utility services, revenues which are sufficient to meet the financial obligations of each independent utility enterprise. Further, the Board intends to apply rates and charges which are equitable among customer or classes of customers based on the Utility Basis of rate-making principles."

With this guidance staff conducted a Cost of Service Study for the water utility during 2019. The Board, reviewed the results of the study at the September 24, 2019 meeting and recommended that management present a budget scenario that included an across the board 3.5% general rate increase.

During the October 17<sup>th</sup>, 2019 budget review by the Finance Committee and the October 29<sup>th</sup>, 2019 full Board meeting, staff presented the 2020 budget for the water utility which included a proposed 3.5% general retail revenue increase for 2020 which supports and provides for prudent investments in infrastructure while working toward a sound financial position.

The water cost of service study and proposed water rates assumes normal growth and replacement of infrastructure. Unfunded DMC projects or other large unanticipated expenses may impact rates in the future.

The impact of the proposed 3.5% general rate increase on the average residential customer using 6.4 CCF monthly is \$0.47 per month. The commodity charge for 1 CCF ranges from \$0.892 to \$1.102, so conservation of 1 CCF (748 gallons) per month would offset the proposed rate change in most cases.

A notice of the proposed revenue adjustment was provided to the public via the paper of record.

Management recommends that the Board proceed with a recommendation to the City Council for a one year rate adjustment for 2020 of 3.5%.

### FOR BOARD ACTION

Agenda Item # (ID # 11260) Meeting Date: 11/12/2019

### **UTILITY BOARD ACTION REQUESTED:**

Request approval and recommend the City Council approve a one year overall general water rate increase of 3.5% according to the attached rate tariffs and fee schedule, effective on or about January 1, 2020.

### RATE SCHEDULE WTR-C SHEET 1 OF 2

### WATER SERVICE

### **AVAILABILITY:**

At all locations within the Rochester City limits and at locations external to the City limits, that have been authorized by the Rochester Common Council.

### **MONTHLY RATE:**

Customer Charge:	Size of Meter	2019	<u>2020</u>
	5/8"	\$\frac{7.95}{}	\$8.23
	3/4"	<del>\$ 11.30</del>	\$11.70
	1"	\$ 18.1 <del>7</del>	\$18.81
	1-1/2"	\$ 35.05	\$36.28
	2"	<del>\$ 55.34</del>	\$57.28
	3"	\$ 102.96	\$106.56
	4"	<del>\$ 170.82</del>	\$176.80
	6"	\$ 340.47	\$352.80
	8"	\$ 608.89	\$630.20
Commodity Charge Rate/CCF:		2019	<u>2020</u>
	0 - 7 CCF	<del></del>	89.2¢
	7.01 - 12 CCF	<del>93.8¢</del>	97.1¢
1	2.01 and over CCF	106.5¢	110.2¢
Commercial		<del>86.2¢</del>	89.2¢
Industrial		8 <del>6.2¢</del>	89.2¢
Interdepartmental		<del>86.2¢</del>	89.2¢
Irrigation Meter (All Classes)		1 <del>06.5¢</del>	110.2¢

NOTE: Customers whose service is taken outside the Rochester city limits with individual water systems not connected to the City water system shall have a rate of 2.0 times the customer and commodity charges.

### **MINIMUM BILL:**

Applicable monthly customer charge according to size of meter provided.

### **PAYMENT:**

Payments are due on or before the due date.

### **CONDITIONS OF DELIVERY:**

- 1. Service furnished under this rate schedule is subject to connection policies of the Rochester City Council.
- 2. Service furnished under this rate schedule is subject to provisions of RPU's Water Service Rules and Regulations.

  Packet Pg. 64

### RATE SCHEDULE WTR-C SHEET 2 OF 2

- 3. RPU shall not be liable for damage or loss sustained by customer in conjunction with taking service under this rate.
- 4. Water furnished under this rate shall not be resold.
- 5. This tariff assumes use of metering technology capable of being read using automated equipment. Customers choosing the option to have a meter that is not capable of being read using automated equipment, thus requiring a manual reading, are subject to a monthly surcharge. Additional one-time meter change-out fees also apply. (See the RPU Miscellaneous Fee Schedule for the amount of the monthly surcharge and the one-time meter change-out fees).

### RATE SCHEDULE FHFC SHEET 1 OF 1

### FIRE HYDRANT FACILITIES CHARGE

#### **APPLICABILITY:**

To all residential and commercial and industrial water utility customers.

### **MONTHLY RATE:**

<u>Customer Class</u>	<u>2019</u>	<u>2020</u>
Residential	<del>\$ .95</del>	\$ .98
Commercial/Industrial	<del>\$ 3.90</del>	\$ 4.04

### **BILLINGS:**

Billings will be on a monthly basis.

#### **PAYMENT:**

Payments are due on or before the due date.

### **CONDITIONS OF DELIVERY:**

- 1. RPU shall not be liable for any damage or loss sustained by customer resulting from interruptions, deficiencies, or imperfections of service provided under this rate.
- 2. The rate will not be applied to water service meters that are used exclusively for irrigation purposes.
- 3. The rate will not be applied to water service meters that are not connected to the City's central water system.
- 4. The rate will be applied regardless of the property's water service status (active or non-active).

Approved by Rochester Public Utility Board: Effective Date:

November 12, 2019 January 1, 2020

### RESOLUTION

BE IT RESOLVED by the Public Utility Board of the City of Rochester, Minnesota, to appro	ve an
overall general rate increase for 2020 of 3.5% according to the attached tariff effective	on or
about January 1, 2020.	

BE IT FURTHER RESOLVED by the Public Utility Board of the City of Rochester, Minnesota, that the Common Council of the said City is requested to approve an overall 3.5% water utility rate increase according to the attached tariff effective on or about January 1, 2020

Passed by the Public Utility Board of the City of Rochester, Minnesota, this 12th day of November, 2019.
