• Cooling Equipment	• Motors
• Custom Efficiency	• Variable Speed Drives
• Electric Efficiency Appliances/Equipment	• Water-Efficient Appliances & Equipment
• Energy Audit Application	• Hi-Efficiency Water Pumps
• Heat Pumps (Air Source, Ground Source, Water Source)	*See lighting table for equipment efficiency

Partnering in Energy Solutions (PIES)

Our PIES financing program can help fund an energy reduction project by offering 0% interest loans, up to \$25,000 for qualified customers. Eligibility requires a 2 year pay history in good standing, and the project must qualify for a Conserve & Save® rebate. This financing allows a customer to pay for the project on their bill over a one or two year period at 0% interest.

Rebate Application and Processing

After you have identified the energy savings project you would like to pursue for your building, contact an RPU representative below, to help verify that the proposed equipment would qualify for the rebate. Some rebates have very specific efficiency requirements that must be met.

Energy & Environmental Advisor	Mohamed Faal	507.280.1607	Mfaal@rpu.org
Energy & Environmental Advisor	Josh Mason	507.280.1588	JMason@rpu.org
Energy & Environmental Advisor	Anna Basimamovic	507.280.1565	ABasimamovic@rpu.org
Energy & Environmental Advisor	Jake Shones	507.280.1578	JShones@rpu.org

CONSERVE & \$AVE®

Rochester Public Utilities – 2023 Conserve & \$ave® Multi-Family Rebate Program

Rochester Public Utilities (RPU) offers many rebate incentives towards the purchase of new energy efficient equipment, appliances, and products. Forms can be found on RPU's website at

<https://www.rpu.org/rebates-programs/commercial/conserve-save-rebates.php>

Listed below are the rebates currently offered for 2023:

Multi-Family Rebate Types:

- LED Lighting (Lamps and Fixtures)
- Dishwashers
- Refrigerators
- Clothes Washers
- Toilets
- Electric HVAC and Water Heating Rebate Application
- Central Air Conditioner Clean & Tune Rebate Application
- Custom Efficiency (electrical equipment/processes that can be proven to save kWh will be considered)
- ENERGY STAR® Smart Thermostats for All-Electric Home
- ENERGY STAR® Heat Pump Water Heaters

Example rebate for a typical rental unit: (using Energy Star rated appliances/fixtures)

(5) LED Fixtures <25watts	= \$100	(1) High-Efficiency Toilet	= \$25
(1) Clothes Washer	= \$90	(1) HVAC >20kBTU	= \$725
(1) Refrigerator	= \$25	(1) Weather-Based Irrigation Controllers	= \$75
(1) Dishwasher	= \$40		

Total Rebate = \$1,080**

**Rebate total is based on Energy Star Most Efficient Appliances, and HVAC over 20,000 btu/hr, irrigation controllers are now 50% of cost up to \$75.

Rebate Application and Processing:

- After you have identified the energy savings project you would like to pursue for your building, contact an RPU representative below, to help verify that the proposed equipment would qualify for the rebate. Some rebates have very specific efficiency requirements that must be met.
- After the equipment has been installed, complete the rebate application, and include all required information (i.e. copies of invoices, spec sheets, etc., then submit the completed rebate to RPU.
- After the rebate has been received and processed by RPU, the customer will receive a rebate check.
