

CONSERVE & \$SAVE®

COMMERCIAL MOTORS REBATE APPLICATION

SECTION A. CUSTOMER INFORMATION (please print)

Account Name _____ Doing Business As (if different from Account Name) _____

Installation Address _____ City _____ State _____ Zip Code _____

Mailing Address (if different from above) (rebate check will be mailed here) _____ City _____ State _____ Zip Code _____

Account Number _____

Send us a rebate check. Apply rebate to our account.
(Rebates \$75 and under will be applied to your account. If a box is not checked a bill credit will automatically be issued.)

Type of Business: Church _____ Government _____ Grocery _____ Health _____ Industrial _____ Lodging _____
Multi-family _____ Office _____ Restaurant _____ Retail _____ School _____ Other _____

How did you hear about CONSERVE & SAVE*? Billboard _____ Chamber of Commerce _____ Contractor _____ Newspaper _____ Radio _____
Retailer/Vendor _____ Social Media _____ TV _____ Utility Newsletter _____ Utility Representative _____ Utility Web Site _____ Other _____

SECTION B. CONTACT INFORMATION (please print)/CUSTOMER SIGNATURE

ATTENTION: ALL INVOICES OR RECEIPTS AND ALL SPECIFICATION SHEETS MUST BE INCLUDED WITH YOUR FULLY-COMPLETED AND SIGNED APPLICATION OR APPLICATION WILL BE RETURNED.

Contact Name (rebate check will be mailed to contact) _____ Daytime Phone Number _____

Email _____

I certify that all the information in the application (including any associated worksheets) is correct to the best of my knowledge. I have read and agree to the Terms and Conditions on the back of this application booklet. I understand that if any equipment in conjunction with this application is ordered, purchased, or installed before approval from The Utility is received, the proposed project may not qualify for a rebate.

Customer's Signature _____ Date _____

Check here if you DO NOT give us permission to use your business name in advertising our CONSERVE & SAVE® programs.

SECTION C. CONTRACTOR/VENDOR INFORMATION (please print)

Company Name _____ Contact Name _____

Address _____ City _____ State _____ Zip Code _____

Daytime Phone Number _____ Email _____

TEAMING UP TO SAVE YOU MONEY

2.														
3.														
4.														
5.														
6.														
7.														

*Must include specification sheet showing model number, HP, motor efficiency, RPM, and enclosure type.

TOTAL PREMIUM-EFFICIENCY MOTOR REBATE:

¹Existing motor must be in working condition for the new motor to be eligible for the “Replace Working” motor rebate.

²Motor Enclosure Types: **TEFC** = Totally Enclosed Fan Cooled; **EP** = Explosion Proof; **ODP** = Open Drip Proof

³The National Electric Manufacturers Association (NEMA) nominal full-load efficiency of the new motor(s) must meet or exceed the efficiency shown in Premium-Efficiency Motor Table 6 (see page 7).

⁴Check this column if the new motor efficiency meets or exceeds the “Enhanced” efficiency shown in Enhanced Premium-Efficiency Motor Table 7 (see page 7). If applicable, select rebate from Table 2.

⁵For inventoried Enhanced Premium Efficiency motors only, please insert the estimated installation date: **A = 2–12 months, B = 12–24 months, C = over 24 months.**

6. Retrofit New Case	Reach-In Walk-In	Cooler Freezer	Shaded Pole Permanent Split Capacitor					

TOTAL ECM EVAPORATOR FAN MOTORS REBATE:

¹Rebates are not available for ECM motors in new walk-in coolers or freezers.

For walk-in units, only the retrofit of existing motors qualify.

²For retrofit projects, new ECM motors must replace existing shaded pole or permanent split capacitor fan motors.

Incentives do not apply to condenser fan motors.

ECM = Electronically Commutated Motor

TABLE 3 – ECM EVAPORATOR FAN MOTORS IN REFRIGERATED CASES REBATE TABLE

Project Type	Case Type	Case Temp	Existing Motor Type	Rebate Per ECM Motor

*Motors greater than 200 HP may be eligible for a rebate under our Custom Efficiency Rebate Program.

SECTION I. TERMS AND CONDITIONS

1. ELIGIBILITY

Rebates are available to non-residential customers of Austin Utilities, Owatonna Public Utilities, and Rochester Public Utilities (here-in referred to as The Utility). All products must be in use in facilities in the Utility service territory. The applicant shall be an end-user (i.e., not a motor wholesaler, distributor, or installer) of either commercial or industrial motors.

2. APPLICATION

Program is offered January 1 through December 31 of the respective calendar year. **Due to limited funding, this rebate offer can be changed or withdrawn at any time without notice and is available on a first-come, first-serve basis.** All projects must be pre-approved by the Utility to qualify for a rebate. The entire rebate application must be read and filled out completely or the application will be returned.

3. INSPECTION AND VERIFICATION

The Utility reserves the right to inspect the Customer's facility through on-site visitations before and after new equipment installation or inventory to verify rebate eligibility. The Utility reminds you to follow all local permitting and building code ordinances.

4. INSTALLATION AND REBATE AMOUNTS

Qualifying energy-efficient motors must be new and installed and operational within six (6) months of the date of purchase are eligible for rebate under the NEW or REPLACEMENT rebate schedule. Additional time may be granted subject to the Utility's pre-approval. Qualifying energy-efficient motors being used for replacement of on-site inventory are eligible for rebate under the INVENTORY rebate schedule. In no case will the rebate paid by the Utility exceed the purchase price of the equipment. The maximum rebate amount may be limited.

5. INVOICE AND PAYMENT

Following inspection and verification (see #3) and completed installation, the customer must notify the utility and submit original invoices specifying the quantity and price of all materials purchased, the date ordered, installation costs, and applicable taxes. After satisfactory review of the invoices and on-site verification, a rebate check will be issued to the Customer. Vendors or contractors are not eligible to receive the rebate. Please allow 6 - 10 weeks from the date of on-site inspection for delivery of payment. The utility reserves the right to apply rebates to past due accounts.

6. EQUIPMENT ELIGIBILITY REQUIREMENTS

NEMA Premium-Efficiency and Enhanced Premium-Efficiency Motors: Eligible motors must be NEMA design B or C, AC - 3-phase, 1 to 200 HP and shall be approved under the electrical safety code. Eligible high-efficiency motors must meet or exceed the Utility's minimum efficiency requirements as shown in the Premium-Efficiency Motor Tables according to its respective characteristics. New motor must replace a working motor to be eligible for Premium-Efficiency motor rebates shown in Table 1. All 3-phase motors must have a NEMA nominal efficiency ratings clearly stamped on the nameplate. Rewound motors of any kind are not eligible. Motors and equipment with motors that qualify for Utility rebates under other Utility programs are not eligible for a rebate payment under this program.

Existing motor must be in working condition for new motor to be eligible for working motor rebate.

The NEMA-rated full-load efficiency of the new motor must meet or exceed the efficiency shown in Motor Tables to be eligible for the Enhanced Premium-Efficiency Motor Rebate.

ECM Evaporator Fan Motors in Refrigerated Cases: Eligible motors must be new electronically commutated motors (ECM). For retrofit projects, new ECM motors must replace existing shaded pole or permanent split capacitor evaporator fan motors. Removed fan motors must not be reused within Utility's service territory. Rebates are not available for ECM motors in new walk-in coolers or freezers.

ECM Motors on Refrigeration Condenser Fans: Eligible motors must be new electronically commutated motors (ECM). For retrofit projects, new ECM motors must replace existing shaded pole or permanent split capacitor evaporator motors. Removed fan motors must not be re-used within Utility's service territory.

ECM HVAC Fan Motors: Eligible motors must be new electronically commutated, DC brushless, or permanent magnet style on fan-powered terminal box, fan coil, or HVAC supply/return air fan. Removed fan motors must not be re-used within Utility's service territory.

ECM Circulator Pumps: Eligible circulator pump motors must be new electronically commutated, DC brushless, or permanent magnet style. Circulator pump motor must be capable of variable speed operation and must include integrated controls that automatically modulate flow based on demand. Circulator pump motor must be > 1/50 horsepower and < 1 horsepower in size. Removed fan motors must not be re-used within Utility's service territory.

7. TAX INFORMATION

The Utility will not be responsible for any tax liability imposed as a result of the rebate payment(s). Customers are advised to consult their tax advisors for details.

8. DISCLAIMER

The Utility does not guarantee that the implementation of energy-efficient measures or use of the equipment purchased or installed pursuant to this program will result in energy or cost savings. The Utility makes no warranties, expressed or implied, with respect to any equipment purchased or installed including, but not limited to, any warrant of merchantability or fitness for purpose. In no event shall The Utility be liable for any incidental or consequential damages. Customers are solely responsible for the proper disposal of existing equipment. Consult the Minnesota Pollution Control Agency (MPCA) office for details at 800.657.3864.

9. ENDORSEMENT

The Utility does not endorse any particular vendor, manufacturer, product, or system in promoting this rebate program. Listing a vendor or product does not constitute an endorsement, nor does it imply that unlisted vendors or products are deficient or defective in any way.

10. PRIVACY

Information contained in this rebate application may be shared with the Minnesota Department of Commerce and our co-op partners and also may be used in our advertising efforts with your permission as granted in Section B of this rebate application.
