

SOLARCHOICE

A Community Solar program

Brought to you by:

WHAT IS SOLARCHOICE?

SOLARCHOICE is Rochester Public Utilities' (RPU) community solar program. Community solar is a way to benefit from solar without installing it on your rooftop or property. It's an easy way to join the solar movement at a level that is affordable to you. While only 25% of rooftops are suitable for solar installations, community solar provides an equitable way to allow those who want more solar to get it without impacting those who do not.

HOW DOES THE SOLARCHOICE PROGRAM WORK?

Instead of putting panels on your roof, we build a large solar project called a community solar garden with thousands of panels. You subscribe to a portion of the energy produced by one or more panels in the community solar garden*, along with many other residents who share your commitment to renewable energy. Each month you receive a energy (kWh) credit for the solar electricity generated by your subscribed panel(s).

HOW MUCH DOES SOLARCHOICE COST?

Pricing is set on a per panel basis. Each customer may purchase the output from enough panels to cover up to 12 times their minimum month's usage over the most recent twelve month period. **SOLARCHOICE** program agreement term is for 12 years.

- **One-time cost of \$650 per panel****
- or
- **12 monthly payments of \$55.00 per panel*****

* One 335 watt panel is expected to produce an average of 501 kWh per year.

** To participate in the **SOLARCHOICE** Program customer must be current with payments.

*** To participate in the Monthly Payment Plan, customer must have good credit standing with the utility. Payment will be applied to the monthly utility bill.

The deadline to participate in this program is December 31, 2017.

WHAT IF I MOVE?

If you move to another address within RPU's service territory, your **SOLARCHOICE** subscription moves with you. If you move outside RPU's service territory, you may transfer your subscription to another RPU customer.
