

# SHARE THE POWER, BUT NOT YOUR ROOF!

## JOIN RPU'S COMMUNITY SOLAR PROGRAM.

### What is Community Solar?

Community solar is an alternative to rooftop solar installed at a customer's property. It's an easy and affordable way to join the solar movement and enjoy renewable energy. While only 25% of residential rooftops are suitable for solar installations, community solar provides an equitable way to allow those who want more solar to get it without impacting those who do not.

### How does SOLARCHOICE work?

Instead of putting panels on your roof, we build a large solar project called a community solar garden with thousands of panels. You subscribe to a portion of the energy produced by the community solar garden, along with many other residents who share your commitment to renewable energy. Each month you receive a bill credit for the solar electricity generated by your subscribed panel(s).

### Informational Meetings

Learn more about our community solar program so you can decide if it's right for you.

**DATES:** Thursday, September 7, 2017 • 12-1pm  
Thursday, October 5, 2017 • 5:30-6:30pm  
Thursday, October 26, 2017 • 12-1pm

**LOCATION:** Rochester Public Utilities  
4000 East River Road NE • Rochester, MN 55906
