

SHARE THE POWER, BUT NOT YOUR ROOF!

JOIN RPU'S COMMUNITY SOLAR PROGRAM.

What is Community Solar?

Community solar is an alternative to rooftop solar installed at a customer's property. It's an easy and affordable way to join the solar movement and enjoy renewable energy. While only 25% of residential rooftops are suitable for solar installations, community solar provides an equitable way to allow those who want more solar to get it without impacting those who do not.

How does SOLARCHOICE work?

Instead of putting panels on your roof, we build a large solar project called a community solar garden with thousands of panels. You subscribe to a portion of the energy produced by the community solar garden, along with many other residents who share your commitment to renewable energy. Each month you receive a bill credit for the solar electricity generated by your subscribed panel(s).

Informational Meetings

Learn more about our community solar program so you can decide if it's right for you.

DATES: Thursday, October 26, 2017 • 12-1pm
Thursday, November 30, 2017 • 5:30-6:30pm
Tuesday, December 12, 2017 • 12-1pm

LOCATION: Rochester Public Utilities
4000 East River Road NE • Rochester, MN 55906
